RETURN TO CASTLE WOLFENSTEIN might be old (released in 1999), and it might not look as purdy as THE NEW COLLOSSUS, but it sure plays better than any other WOLFENSTEIN game and has a superb atmosphere with the most diverse areas. The id Tech 3 engine still looks good and they really did a lot with it.
No hand-holding, no quest markers, just good old school FPS fun. Definitely one of the best shooters out there.. My god, the childhood memories with this thing... beautiful times. I had really fond memories of this game, but most of that was from the demo where the majority of the enemies are melee only and you don't have to deal with the AI's laser lock-on system.

It plays almost like a single player version of Counter-Strike, except it's actually still fun and nowhere near as cheap (most of the time) as the deleted scenes of Condition Zero. Corner jiggle peeking is rewarded and prolonged spraying of the automatic weapons is punished with poor accuracy.

It's good but not as great as I remembered and I would actually recommend playing on the easiest difficulty to avoid having to exploit the AI when dealing with the more powerful bullet sponge enemies in the 2nd half of the game, as I had to in my recent play through.

There are fan patches, source ports, and texture packs available to accommodate the higher resolutions of modern monitors and future proof the game for current and future operating systems.. A fun sequel utilizing the Quake 2 engine. It gave a new experience to the classic storyline for a next-generation upgrade out of the sprite-based era.

Many of the plot elements were later adapted to other Wolfenstein games, making this title a bit obsolete.
I recommend it for completionists and fans of the old school play.

It did spawn and amazing multiplayer movement, however.. Classic WW2 game by all means! Those were the good times when you actually saw legitimate german WW2 uniforms with swatstika armbands, swatstikas flags and hilter posters unlike today's games. Thumbs up and hopefully we get a remastered version soon!
